Monto™ Sit-Stand Riser

Monto is a portable desktop riser that turns any work surface into a sit-to-stand workstation. It seamlessly integrates with CBS monitor arms and laptop mounts to create a fully ergonomic setup that's simple to use. The efficient design encourages postural variety to provide comfort throughout the day, wherever you work.

Benefits

- Improves comfort by allowing you to move effortlessly between sitting down and standing up, when it's positioned on its feet

- Portable, light, and requiring no tools for setup, turns any work surface—a desk, kitchen table, or dresser—into a sit-to-stand work surface

- Optimizes work-surface space by keeping cords tidy with integrated cable management clips and leaving the surrounding area clear for tech tools, documents, lights, and other workstation essentials

Warranty
5-year; 12-year for extended height riser clamps

Key Features

1. **Smooth and Secure Height Adjustment**
   Monto has a spring-assisted lift mechanism with gravity-lock latches that, when Monto is positioned on its feet, allows for smooth movement between the nine adjustment levels.

2. **Soft-Touch Surface**
   The soft-touch surface, which doubles as a mouse mat, provides ample space for essential work tools (up to a maximum weight of 15 pounds).

3. **Durable and Lightweight Frame**
   Made with anti-scratch aluminium and an anti-slip base, the frame has a thin profile when fully lowered, making Monto easy to store when it's not in use.

4. **Integrated Cable Clips**
   Cable clips keep device and light cords out of the way, so the surface stays tidy.

5. **Optional Extension Clamp**
   By adding an extended height clamp to an Ollin or Flo monitor arm and using that setup in conjunction with Monto, you can create a fully ergonomic sit-stand experience.
